### **Past Activities---Art & Vicky Hoock**

**Fort Langley Parade** - On Victoria Day, May 18<sup>th</sup>, our club had 3 vehicles entered in this annual event: Rick & Regan Lewis in the 1931 Model A Victoria, Karl Horst and his lovely granddaughter on the 1954 Vespa scooter, and ourselves in the 1968 New Yorker. The announcer commented that that one would be able to build 10 Smart Cars out of our New Yorker. Due to a lack of interest, this was probably our last May Day Parade.

**Local Tour Event** - Art Hoock's turn to host a Collectible Chrysler event was on May 30<sup>th</sup>. Because the Chrysler is relatively small, the CFV Chapter was invited to join with a total of 15 vehicles in attendance, including George Bone's 1949 Ford Fire Truck. About 16 people had lunch at Apple Betty's in Abbotsford and the rest came after for a drive to Jake Friesen's mostly Mopar collection of cars and trucks on Clearbrook Rd. Most of Jake's vehicles are restored to perfection and he also has 7 Minneapolis Moline and one John Deere restored tractors.

After Friesen's collection, we toured via side roads to Granny & Grampa's Antiques, located on a farm south-east of Whatcom Road. John Swaggert and his wife were very hospitable and their already vast collection has at least doubled since visiting there about 4 years ago and included a D 9 Cat dating to the 1950's. They have many rare antiques that one does not regularly see and we were scratching our heads to figure out their uses. Together with the excellent weather, most people commented favourably on the day's events, including Jonathon Myers from KMS Tools, who was our presenter at the last meeting.
