On a Personal Note

(This very very anonymous email and photo was sent to me very very hush hush...ed ed.)

How men differ from women in remembering the past

A wife was curious when she found an old negative in a drawer and had it made into a print.

She was pleasantly surprised to see that it was of her at a much younger, slimmer time, taken many years ago on one of her first dates with her husband.

When she showed him the photo, his face lit up.

"Wow, look at that!" he said with appreciation,

"That's my old Mustang!"
